

J. Scott Angle, Dean and Director
University of Georgia College of Agricultural and Environmental Sciences

Dr. Scott Angle is Dean and Director of the University of Georgia College of Agricultural and Environmental Sciences.

Prior to his UGA appointment in 2005, the internationally known soil scientist was Executive Associate Dean and Director of the Maryland Agricultural Experiment Station, the Maryland Cooperative Extension Service and the University of Maryland College of Agriculture and Natural Resources.

Dr. Angle is a distinguished researcher in the field of soil microbiology and biochemistry. He is an authority on phytoremediation, risk assessment of genetically modified crops and agronomy. He has authored or co-authored 350 scientific papers, reports, book chapters and other publications.

Dr. Angle was a Fulbright Scholar and is a fellow of the American Society of Agronomy and the Soil Science Society of America. He received the agronomy society's environmental research award in 1998 and the education award in 2003. He also received the University of Maryland Distinguished Teacher-Scholar Award in 2003, the highest award made to a faculty member.

He earned his bachelor's degree in agronomy and master's in soil microbiology at the University of Maryland and his doctorate at the University of Missouri.
